

Job Title: Windows C++ Developer
Department: Engineering
Reports to: Senior Director, Engineering
Location: Cambridge, UK

Position Summary:

We are looking for a Windows C++ Developer to join our engineering team in Cambridge. You will be designing and developing a complex enterprise class security product based on micro-virtualization. You will need to attack hard problems and be able to tackle areas that are undocumented and build robust solutions.

We would welcome applications from candidates with proven commercial development experience as well as from recent graduates with C++ knowledge.

Key objectives for this role:

- Integrating with web browsers, applications and various components of the Windows OS
- Building enterprise class Windows applications that will be deployed on millions of desktops
- Working with product management to virtualize and implement web browser features with micro-virtualization

The ideal candidate will have:

- Experience with development on the Windows platform
- Programming experience in C++
- Ability to work in a fast-paced environment
- Bachelor's Degree in Computer Science or equivalent

The following skills and attributes are a plus:

- Experience working on an open source project would be beneficial
- Understanding of virtualization is a plus
- An interest in browser development and security is a big plus
- Knowledge of Windows Internals is a bonus
- Familiarity with Python and/or JavaScript

Company Overview:

Bromium was founded in 2010 with a mission to restore trust in computing. The company's founders, Ian Pratt and Simon Crosby have a long and deep history of innovation in virtualization and security. Inspired by the isolation principles of traditional virtualization, the

Bromium team has created a game-changing new technology called micro-virtualization to provide powerful enterprise by protecting end users against advanced malware. Bromium has its headquarters in Cupertino, California and an R&D center in Cambridge, UK. The company is backed by top-tier investors, including Andreessen Horowitz, Ignition Capital, Highland Capital Partners, Intel Capital, Meritech Capital and Lightspeed Venture Partners.
